Site involves ~~desert~~ area with long

~~mountain/rock formations, including a~~

In this desert area is a manmade structure which ~~is not~~ I have not as yet successfully resolved. Something that has to do with it. ~~is not~~ Something to look involving people, culture, etc. & may be rounded a dome like. Area may be set aside by man, as a "national park," or something.

There are many people concentrated here, associating with one another for specific purposes or purposes. White & warm colors (red & orange) predominate. The subject of this place involves the cultural & social milieu of the people. Reading, carving, interacting & significant diversity are important to the people at the site. Area manifests a sense of ~~low~~ low development non westernized, somewhat ^{suggestive of} pastoral or agricultural, + religious on a ~~barren~~ ^{barren} ~~land~~ ^{land}

This site gives a strong impression of places like
Capetown, S.A. (in terms of terrain + cultural standard); a
Navajo Indian Reservation, for same basic reasons; or
Mesa, because of cultural aspects as well.
